Façade Renovation “Suites Avenue Apartment”

by archicubed on May 2nd, 2010.

The façade design was inspired by Gaudi’s work and mimic the ocean waves. The façade along with the interior patios and central core were all designed by Toyo Ito, however, the rest of the hotel was designed by Carlos Bassó and Toni Olaya. This Luxury Hotel has an amazing view of Gaudi’s La Pedrera, what led Toyo Ito to accept this commission.
