SUITES AVENUE APARTMENTS

2 ratings [log in to rate!](#)

TOYO ITO, CIRICI & BASSO, FACTORIA UDA

location **Barcelona**
function **commercial space, hotel**
contributed by **Jose_Garcia**

The project transforms a former office building into a touristic luxury apartments. The team formed by the studios of Carles Basso and Toni Olaya, both specialized in hotel projects, carries out the design of almost all the project. The client's wishes of reached an exclusivity image for this project, located on an emblematic site, Passeig de Gracia in front of Gaudi's La Pedrera, drive to entrust with Toyo Ito the design of the façade and hall. Toyo Ito designs an organic façade directly inspired by Gaudi. The façade consist of an 8 mm. waving aluminium sheet, on which cuts are made to generate openings. The façade performs a double role: in the first one acts like a sculptural mask hiding the real black elevation of the building, in the second allows the interior spaces be completely open to the outside looking to La Pedrera and, at the same time, preserves their privacy.
